

HYBRID WATER TREATMENT SYSTEM

(Capacity: 60,000 L/Hr)

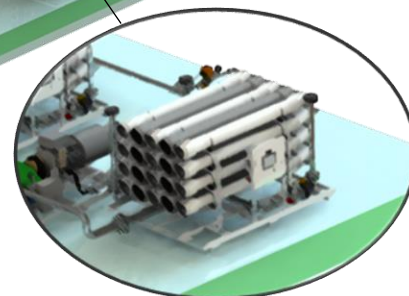

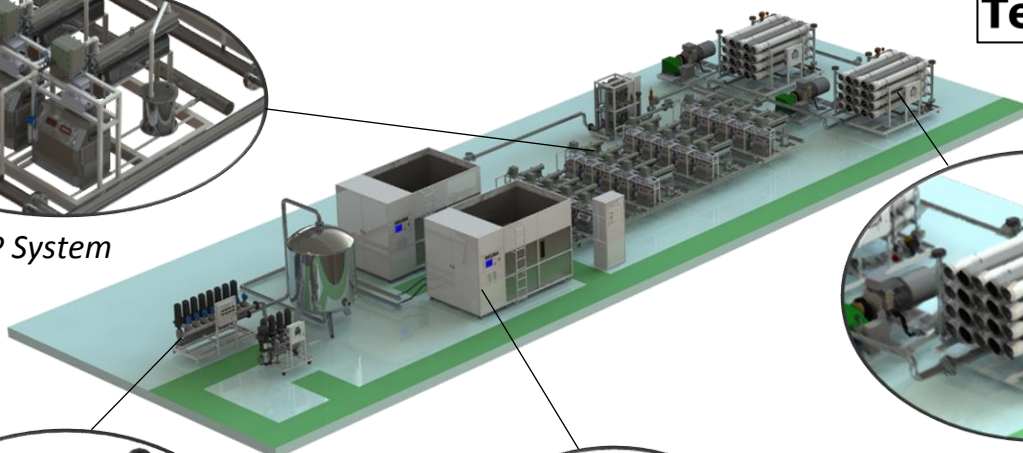

OVERVIEW

Application: Textile treatment recycle / re-use.

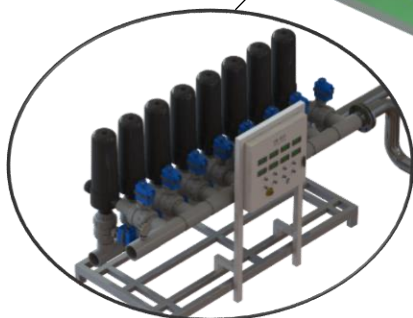

TOGUN
DAF
Technology

ecAOP System

RO Module
(**TORAY** membrane)

Biomass filter

MBR Module

Features

Chemical Free System

Automated Operation
with LCD Touch Screen

With Powder Coating

Plant Footprint: 30 M X 10.8 M

Module	Capacity	Power Consumption	Power Supply
	m ³ /h	kW/h	AC, 50/60Hz
Hybrid Water Treatment System	60	166	380-480V
