

HYBRID WATER TREATMENT SYSTEM

(Capacity: 500 L/Hr)

OVERVIEW

Application: Ink treatment recycle / re-use.

Chemical Free System

Automated Operation with LCD Touch Screen

Features

With Powder Coating

Low energy consumption

Optional Integration with Solar System/Generator

Plant Footprint: 10M X 5M

Module	Capacity	Power Consumption	Power Supply
	m ³ /h	kW/h	AC, 50 Hz
Hybrid Water Treatment System	0.5	12	110-220/220-240V
