

OVERVIEW

Applications

Features

- Containerized (20ft size) and compact RO water producer.
- High salt rejection from the reverse osmosis process (99.8%).
- Disk filter with *biomass filter* or grooved disc filtering elements.
- Optional electrodeionization (EDI) unit to recycle brine water
- Automated operation with a touch screen LCD (auto backwash included).
- Possible integration with solar system/generator.

Module	Capacity	Power Consumption	Power Supply	Size
	m ³ /h	kW/h	AC, 50/60 Hz	W x L x H (m)
CT-1500L	1.5	< 22.0	380-440V	2.44 x 6.06 x 2.59
