

SEA DESALINATION SYSTEM

(Capacity: 1000 L/Hr)

OVERVIEW

MODEL: B

Features

Chemical Free System

Low energy consumption

With Powder Coating

Automated Operation with LCD Touch Screen

99.8% Salt Rejection

Optional Integration with Solar System/Generator

Plant Footprint: 6.5 M X 2.5 M

Module	Capacity	Power Consumption	Power Supply
	m ³ /h	kW/h	AC, 50/60Hz
Sea Desalination System	1	16.5	380-440V
