

WATER TREATMENT SYSTEM

(Capacity: 40,000 L/Hr)

OVERVIEW

Application: Boiler recycle / reuse water treatment system

Features

Chemical Free System

Low energy consumption

With Powder Coating

Automated Operation
with LCD Touch Screen

Plant Footprint: 24 M X 8.5 M

Module	Capacity	Power Consumption	Power Supply
	m ³ /h	kW/h	AC, 50/60Hz
Hybrid Water Treatment System	40	45	380-440V
